Your supply number (also known as a Meter Point Administration Number or MPAN) helps us identify the meter in your property. The Supply number on your invoice should match the supply number on your meter. If it doesn't it's important you tell us.

Your Meter Serial number or Meter ID is another unique code we use to identify your meter. It can be found displayed on your meter usually above or below its barcode.

Supply Point Number:
2380002064558

| | | | |
|---|----|------|----------|
| S | 01 | 801 | 100 |
| | 23 | 8000 | 2064 558 |

Meter Serial Number: KD14K00146

This is the period the charges on this invoice relate to.

| Period of Usage | Energy Usage | Amount |
|-------------------------|---------------------------|--------|
| 1 Sep 2019 - 1 Oct 2019 | 712.2 kWh at 13.504 p/kWh | £96.18 |

Readings used: Previous Current kWh

| | | |
|---------------------|---------------------|-------|
| 27063.6 (estimated) | 27775.8 (estimated) | 712.2 |
|---------------------|---------------------|-------|

Standing Charges from 2 Sep 2019 to 1 Oct 2019: 30 days at 23.8 p/day £7.14

This shows you the previous meter read we used to calculate your bill. It also tells you whether this was an actual meter read or whether we estimated your energy consumption. Providing us with regular meter readings ensures we bill you accurately for the energy you use.

This is the most recent meter read we've used to generate your bill. It also shows you whether this was an actual meter read or an estimated read. You can provide us with your meter reads via our website.

Frequently asked questions

What is a kWh (kilowatt-hour)?

A kilowatt-hour is one kilowatt of power being used for one hour. It is the same as a 40 watt lightbulb being left on for 25 hours.
