

### PRODUCT TERMS AND CONDITIONS

#### **About your tariff**

Price Promise Sep 2022 prices are fixed until *30 September 2022 at rates that are below the 01 October 2021 OFGEM Price Cap rates*. You'll pay a daily standing charge and unit rate for each fuel on this tariff. We'll also add VAT. If you have a multiple rate electricity meter, you may have more than one unit rate. The price of your tariff won't go up or down unless you change your tariff, change how you pay us (for example you stop paying by Direct Debit) or the government or regulator does something or plans something that means the price must change. For example, changing the amount of VAT we must charge. We'll contact you if there is a change to your price. For more details about the rates we charge go to [nabuhenergy.co.uk/terms-and-conditions/](https://nabuhenergy.co.uk/terms-and-conditions/)

#### **Environmental benefits from buying electricity on this tariff**

We match the electricity you buy from us on this tariff with 100% renewable energy by purchasing Guarantees of Origin certificates (GoO) or Renewable Energy Guarantee of Origins (REGOs) certificates or both.

This means buying certificates that guarantee electricity has been generated from a renewable source to match the electricity that you'll use. We'll buy these when the tariff starts, and we'll check at the end of the annual compliance period to make sure that we bought enough GoOs or REGOs certificates or both to cover the electricity used. If you used more electricity than we originally bought and assumed you would use, we'll buy more certificates to cover what you did use.

The certificates are in addition to our legal obligations and schemes and separate from the existing subsidies. Please note, the electricity you use won't be the same energy that was generated from the renewable sources.

For more information about our fuel mix, environmental benefits which are in addition to our legal obligations, government support for renewable energy supply and how electricity is physically distributed go to [www.britishgas.co.uk/greentariffs](http://www.britishgas.co.uk/greentariffs).

### **Paying for your energy**

You'll need to pay by Direct Debit, cash or cheque or payment card.

Your prices may change depending on how you pay. If you pay by Direct Debit but miss any payments we can ask you to pay by cash or cheque. Your prices would go up – we'll explain the difference when we contact you and you can find the details at [nabuhenergy.co.uk/terms-and-conditions/](http://nabuhenergy.co.uk/terms-and-conditions/). We'll let you know at least seven working days before changing how you pay.

If you pay by payment card or, if applicable, directly through the benefits you receive from government, the rates we charge are the same as if you pay by cash or cheque.

### **If we replace your meters with prepayment meters or mode change your meter to prepayment**

If we replace your gas and/or electricity meters with prepayment meters, or mode change your meter to prepayment, we'll switch your tariff for each fuel on prepayment to our cheapest tariff which is available to prepayment meter customers at that time. For any fuel which is not on prepayment these existing terms will apply. We'll let you know if your tariff has changed because you have a prepayment meter.

### **If you want to change your meters**

You need to contact us to discuss this. We will let you know if you contact us, what your tariff options are. You may not be able to stay on this tariff.

### **If you want to cancel or switch**

You can switch to another supplier or tariff without paying an exit fee at any time. You don't have to give us any notice if you want to switch to another supplier.

### **At the end of the tariff**

Before this tariff ends, if you haven't already switched to another tariff or supplier, we'll contact you. If you don't switch tariff or supplier before 01 October 2022, we'll move you to the cheapest default tariff (no exit fees) we have available to you at that time.

From the last 49 days of this tariff ending if you decide to switch you don't have to pay any exit fees. You'll keep your current prices and terms and conditions (excluding exit fees) until:

- You switch to one of our other tariffs no later than 20 working days after (but not including) 30 September 2022; or
- You switch to another supplier and they tell us you'd like to switch no later than 20 working days after (but not including) 30 September 2022. The other supplier then needs to supply your energy within a reasonable time after they told us you want to switch; or
- You try to switch supplier and you pay any outstanding supply charges for the fuel(s) you want to switch within 30 working days after we tell you we object to the switch.

### **Other things to bear in mind**

We'll only sell so many of these tariffs, and we might withdraw it.

Our terms and conditions of supply also apply - you can find them at [nabuhenergy.co.uk/terms-and-conditions/](https://nabuhenergy.co.uk/terms-and-conditions/). If there is any difference between what we say in these terms and conditions and the supply terms, what we say in these terms takes priority.
